It was typical as ours, and they discussed the use of polymer and other chemicals to help with the process. A company will come out and test for efficiency. Currently the water leaks are beginning to show up with the dry weather. There was one on Oak that has been fixed and another on the upper portion of Hwy 505. He would love to get the town painted but the weather is not cooperating.

Mike discussed brush hogging the ditch lines. He would like to get a bid from Mike Thomas for a couple hard to get to areas, as he has a flair mower. Next to the river by the hardware store and Old Pacific Hwy would be two areas. Once it is knocked down then they would be able to keep up with it. Ron asked what the bid was. Mike said it would be less than \$600 to \$650. Ron asked if we had a back log of the polymer. Mike said we have a good supply of it, but we could sell to someone else if we switch over.

Ron motioned to authorize the brush hog and retain Mike Thomas, Glenda seconded. Motion carried.
